

## THREAD ACADEMY - 1 to 6 July 2019

Yvette CAMPOS (France)

Andean weaving

*I am passionate about textile work since a young age. Weaving and tapestry allowed me to develop my interest in colors, shapes and textures. Having become professor of Manual Works and later of Technology, I transmit my passion for these matters.*

*The evolution of time leads me to new modes of expression. I discover digital embroidery, without forgetting my love for weaving. I turn to our ancestors around the world, I study Baltic, Andean, Indian decorative weaves ...*

*I am amazed by the magic of the works emerging from their hands, discoveries that I hasten to update.*
