I discovered the world of the espadrille with the Maison Garcia in Bidart where I worked for a few years. At the closing of this establishment, I strove to perpetuate the know-how of the espadrille hand-sewn in my workshop / shop in Saint Pierre d'Irube since 2007.

I make the classic flat espadrille but also the heeled ones for weddings and processions, tailor-made to match the dress and meet the desires of lovers of the sneaker.
