Born in Lyon in the middle of looms, my passion for fabrics has, over the years, "expanded"! Give a second wind to "stuff" recovered here and there, to associate them with noble materials to translate my emotions, that's my pleasure! My first international level exhibition took place in France in 1993, and it was a series of personal exhibitions in France, Belgium, Germany, Switzerland, Italy, Spain, as well as participations in exhibitions in the USA. Since forever, I particularly like to transmit my passion through internships in France and abroad.
