When I create, I revel in the spontaneous. My free-form process with its surprising twists and turns inevitably delivers me to a place of unfiltered originality where my bold work unapologetically commands attention.

Born and raised in Los Angeles, California, I showed a strong-willed, artistic temperament from an early age and have been creating art since my earliest memories. From years of oil, acrylic and watercolor painting to jewelry-making and architectural photography, it has been a surprising leap to my current passion of studio art quilts. I have exhibited my work at several venues in the US, France, Italy and Japan.

Currently I live in France with my partner Adrien, and our beloved dog Ninja.
